

## *NSC Targets, Trails, Tradition Make Archery a Great Sport*

NSC has along history of successful bowhunting-style archery on woodland trails with the club's 3D targets. In recent years, NSC has become a centerpiece of regional activity, sponsoring several top-flight competitions over the year. We are one of several clubs whose event schedules are published in the regional 3D guidebook.

It takes a fair amount of commitment to keep our trails in good shape, and to keep the course challenging for experts -- as well as accessible to relative beginners. Trail-maintenance and target-handling volunteers invited!

Greg Hoagland, our archery committee chairman, continues to study other clubs' approaches to archery trails with Bobby Clark, an NSC archery mainstay. They welcome members who are interested in sharing and learning practical marksmanship skills.

The traditional principles of archery marksmanship are also taught indoors through NSC's youth program with the coaching of JL Kopcha and Frank Hull.

Contact Greg Hoagland at [greg\\_hoagland@yahoo.com](mailto:greg_hoagland@yahoo.com) or at 860.460.0670 to get involved and add a new "dimension" to the art of the bow.
